About Open Source in Finance Forum Toronto

14 April 2026 | Toronto, Canada

The Open Source in Finance Forum Toronto (OSFF) is the premier event that connects the leaders in financial services, technology, and open source innovation. This conference is uniquely designed to foster partnerships, advance talent development and accelerate technological advancements across the finance industry; building faster, trusted and secure solutions.

As open source becomes integral to financial services, OSFF provides companies with the tools to maximize open source collaboration. By strategically contributing to open projects, organizations benefit from reduced development costs, heightened security, top talent, and rapid innovation. OSFF 2026 will spotlight groundbreaking advancements, deliver insights on best practices, and offer exclusive access to the leaders shaping open source in finance.

Sponsorship at OSFF goes beyond a singular event; it's a year-long engagement with the FINOS community. Engage with influential executives, developers, and decision-makers through continuous touchpoints.

Sponsorship packages include opportunities across multiple channels and formats, each carefully designed to enhance your organization's visibility and impact throughout the year.

For tailored packages or special requests, reach out to us at **sponsorships@linuxfoundation.org**.

Unlock the potential of open source in finance with OSFF sponsorships that resonate all year.

Additional sponsorship opportunities:

- Open Source in Finance Forum - London, 25 June 2026
- Open Source in Finance Forum - New York, 4-5 November 2026
- FINOS Research Studies, Hackathons, Meetups, & Webinars
- FINOS Open Source in Finance Podcast

ABOUT FINOS

FINOS (The Fintech Open Source Foundation) unites the financial services industry to build open technologies and standards that enhance profitability, improve resilience, and accelerate innovation. We are the trusted community designed by regulated industry participants to solve industry-wide challenges and drive operational excellence and financial technology innovation.

As part of the Linux Foundation, FINOS provides a neutral, well-governed home for open source collaboration across the industry. With a global community of more than 100 member organizations — including major financial institutions, fintechs, and technology firms — FINOS advances open standards and production-grade open source for finance. This work embeds these technologies and standards into the core workflows, platforms, and policies of financial institutions, making them essential to how the industry builds, operates, and evolves. We do this with a clear focus on measurable ROI from open source adoption.
