Diversity

At Open Source Strategy Forum London 2021, **37% of speakers and 24% of event participants identified as women**. For speakers, this was a **6% increase** from 2020, and for participants this was a 2% increase from 2020.

While these numbers are high compared to industry standards, we continue to increase efforts moving forward to help grow the diversity of the event presenters and audience for future events.

Community Support

To encourage and increase the participation of a diverse community, The Linux Foundation offers diversity and need-based registration scholarships to our conferences. For Open Source Strategy Forum London this year, we provided:

- **4** Travel Fund Scholarships
- **6** Need-Based Registration Scholarships

Health & Safety

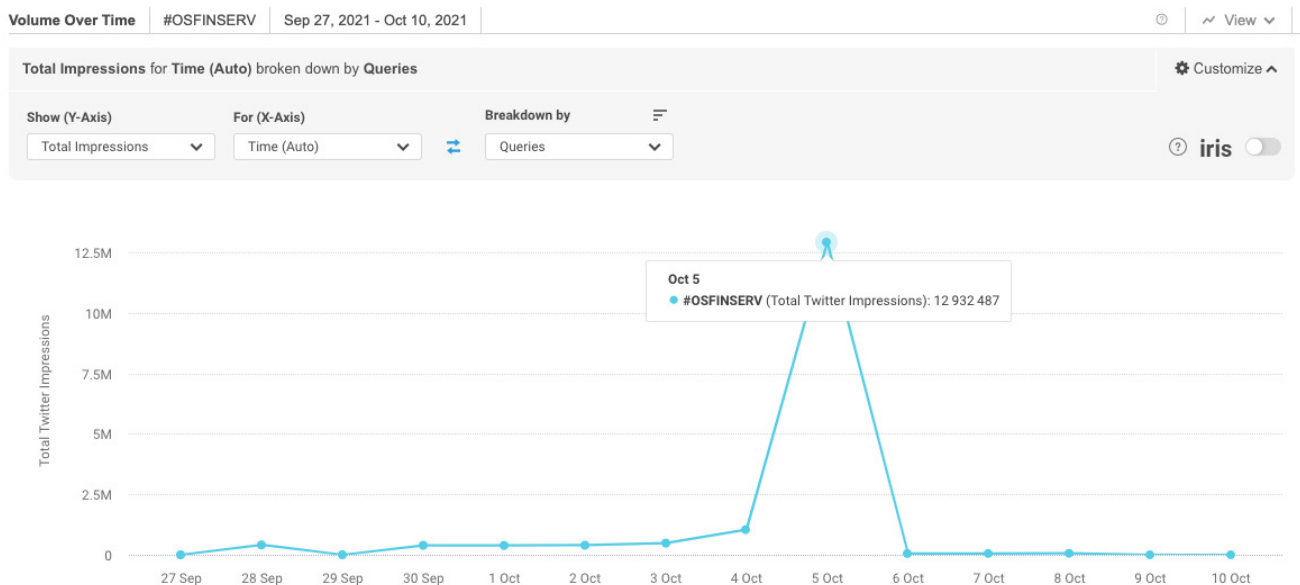

The health and safety of all conference attendees was a critical focus and of utmost importance to us, as we watched the pandemic closely all year and worked to put many measures and new protocols in place. To keep everyone at the event safe, all were required to provide proof of vaccination and their ID, wear a mask throughout the event, and take a daily health symptom survey in order to participate.

Onsite, specific measures, including increased social distancing, interaction wristbands, designated dining areas, plentiful sanitation stations, and more were introduced in order to ensure that all attendees felt comfortable during the event. To learn more about our onsite safety protocols, please read our [blog post here](#) and our OSSF London Healthy and Safety page [here](#).

Social Results

Twitter

The following image shows engagement with the event hashtag, #OSfinserv, from September 27–October 10. During this time, there was a total of 18.3M hashtag impressions. The highest number of impressions was on October 5, (Day of OSSF), with over 12.9M impressions.

Facebook

Posts from The Linux Foundation's Facebook page reached over 100K impressions from September 17 - October 17, achieving over 800 individual engagements.
