Linux Foundation Events are where 90,000+ developers and technologists from across the globe meet to share ideas, learn and collaborate to drive innovation.

Open source communities are nearly always virtual and distributed, so when they get together face to face they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation Events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today's technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and ecosystem development necessary to build, scale, and sustain critical open source projects and communities. As the home of over 400 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike forprofit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.

## JSConf North America 2025

Maryland | October 14 - 16, 2025

Family-friendly fun for all JS communities hosted by the OpenJS Foundation.

The premier event for all things related to JavaScript (JS) on the web and on the server has returned under its new home at the OpenJS Foundation. JSConf has been the launching place for revolutionary libraries, products, services, and most importantly, business relationships. It is an amazing, one-of-a-kind event that focuses on quality over quantity in order to ensure that you receive the return on investment you are looking for.

At JSConf North America 2025, 500+ of the best and brightest JS developers will gather at the <u>Hyatt Regency Chesapeake Bay Golf Resort & Spa and Marina</u> in Cambridge, Maryland, for a two-track, three-day conference that showcases the future of JS and we want you there as a sponsor!

Cambridge is located on the Eastern Shore of Maryland – about 90 minutes southeast of Baltimore and roughly two hours from Washington, D.C., and Philadelphia – all reachable by car or or hosted shuttle bus.

Our sponsorships are structured separately with leveled sponsors, and add-on sponsorships for booths and more. We won't have a traditional exhibit hall, yet we'll have the best technical talent engaging with your brand. We design our sponsorships to create impactful shared experiences that offer lasting value for both you and the attendees. Whether your goal is brand exposure, recruitment, product launches, or something else, we have a sponsorship opportunity tailored to your needs.

Our one-of-a-kind conference format provides both large event numbers while still creating very small intimate and high-value experiences for both attendees and sponsors. We facilitate family-style dinners (listed in the Platinum Level sponsorship opportunities), during which the sponsoring company is encouraged to provide a quick address to all of the attendees. The intermission day will be a choose-your-own-adventure experience day. We are providing these small events (listed in the Gold Level sponsorship opportunities) as opportunities for amazing networking opportunities that are otherwise unheard of at technology events.

Please Note: Sponsors are strongly encouraged to help increase the diversity at JSConf; please consider this when assigning tickets. We appreciate your support in helping to bring diversity to the community and to community events.
