Linux Foundation Events are where 120,000+ developers and technologists from across the globe meet to share ideas, learn and collaborate to drive innovation.

Open source communities are nearly always virtual and distributed, so when they get together face to face they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation Events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today's technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and ecosystem development necessary to build, scale, and sustain critical open source projects and communities. As the home of over 400 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike for-profit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.

About The Linux Foundation Member Summit

February 24–25, 2026 | Napa, CA

Where industry leaders convene to drive digital transformation with open source technologies and learn how to collaboratively manage the largest shared technology investment of our time.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver innovative products and services to their users and customers, companies must learn directly from the senior technologists and thought leaders who steer the most widely used and influential projects.

The Linux Foundation Member Summit (formerly Open Source Leadership Summit) is the annual gathering for Linux Foundation member organizations.

The event fosters collaboration, innovation, and partnerships among the leading projects and organizations

working to drive digital transformation with open source technologies. It is a must-attend for business and technical leaders looking to advance open source strategy, implementation and investment in their organizations and learn how to collaboratively manage the largest shared technology investment of our time.

For sponsors, it is an excellent opportunity to gain access to the event and the attendees for strategic discussions and collaboration.

“THE ONLY EVENT WHERE I CAN MEET ALL OF THE KEY LEADERS ACROSS THE OPEN SOURCE CLOUD COMPUTING PROJECTS IN PERSON. THE CHANCE TO TALK IN PERSON, SHARE ASPIRATIONS AND WRESTLE WITH NEW IDEAS THIS YEAR HAVE ALREADY RESULTED IN COLLABORATION...THE INSTITUTIONAL KNOWLEDGE ABOUT OPEN SOURCE REPRESENTED BY THE PARTICIPANTS IS INSPIRING. THIS IS AN EVENT THAT CAN HELP US BUILD A BETTER SOFTWARE INDUSTRY.” — SAM RAMJI, CHIEF STRATEGY OFFICER, DATATAX

About MCP Dev Summit

April 2-3, 2026 | New York City, NY

Over the past year the [MCP project](#) has quickly reshaped how developers are building AI agents, introducing a critical layer of standardization, and a blueprint for how LLMs can interface with applications and tools. The MCP Dev Summit will bring together MCP co-founders and contributors working on the future of MCP project with developers using it to build the next generation of AI agents.

The MCP Dev Summit is the flagship gathering for builders, contributors, and enterprises advancing AI development with the Model Context Protocol (MCP). For 2026 the MCP Dev Summit will be expanding to two days. We'll kick off each day with keynotes, then continue with three tracks. Sessions will cover topics including the MCP roadmap, security, orchestration, management, observability, registries, as well as how developers are adopting the protocol and building it into their applications.

What to Expect

- Expected attendance 1,000
- 40+ sessions
- Hear directly from MCP maintainers & co-creators
- Expo space with high traffic, networking reception
- Opportunities to connect with MCP champions

Sponsorships are very limited and will sell out quickly — if you would like to be a part of this event please contact the team at sponsorships@linuxfoundation.org.

About Linux Storage, Filesystem, MM & BPF Summit

Linux Storage, Filesystem, Memory Management & BPF Summit gathers the foremost development and research experts and kernel subsystem maintainers to map out and implement improvements to the Linux filesystem, storage and memory management subsystems that will find their way into the mainline kernel and Linux distributions in the next 24-48 months.

This three-day event, underwritten and managed by The Linux Foundation, is invitation only and employs **a nomination process to determine the 85 members of the community who will attend each year.**

Sponsoring this event not only showcases your company's support of those developers and researchers at the forefront of important innovations in these spaces; it also offers a coveted seat at the table for a member of your organization to affect change at the ground level.

About Linux Security Summit

May 21–22, 2026 | Minneapolis, MN

October 8, 2026 | Prague, Czechia

Linux Security Summit (LSS) is a technical forum for collaboration between Linux developers, researchers, and end users with the primary aim of fostering community efforts to analyze and solve Linux security challenges.

LSS is where key Linux security community members and maintainers gather to present their work and discuss research with peers, joined by those who wish to keep up with the latest in Linux security development and who would like to provide input to the development process.

Linux Plumbers Conference

October 5–7, 2026 | Prague, Czechia

The Linux Plumbers Conference (LPC) is a developer conference for the open source community.

LPC brings together the top developers working on the “plumbing” of Linux — kernel subsystems, core libraries, windowing systems, etc. — and gives them three days to work together on core design problems. The conference is divided into several working sessions focusing on different “plumbing” topics, as well as a general paper track.

LPC launched in 2008 at the behest of the community and continues to provide a space where developers working in subsystems can come together to solve problems in real time. Hundreds of key developers gather annually for this event; the conference is limited to this number of people for maximum collaboration opportunities.

Bulk purchase of passes* from the general attendee pool (which is capped and not possible if registration is closed to general attendees) is an additional option available to certain sponsorship levels of Linux Plumbers Conference. This lets sponsors purchase an additional number of tickets with a purchase order if the conference has space available.

The maximum number of additional passes available for purchase corresponds to the sponsoring level.

- Diamond: May purchase up to 15 additional passes
- Platinum: May purchase up to 10 additional passes
- Gold: May purchase up to 5 additional passes
- Silver: No bulk purchase at this level

*Bulk purchase of passes are subject to availability and are not guaranteed.

All bulk purchases are at the regular registration rate and need to be completed with a single PO. The PO must be paid in full before the registration code will be provided.

If you are interested in purchasing bulk registration passes in addition to your sponsorship, please reach out to Courtenay Pope (cpepe@linuxfoundation.org).

About Open Compliance Summit

The Open Compliance Summit is an exclusive event for Linux Foundation members and select invitees. The summit provides a neutral environment for participants from different companies and different backgrounds to:

- Discuss and exchange compliance best practices (processes, policies, guidelines, tools, open source governance, etc.).
- Increase awareness on implementing and managing a compliance program, and managing compliance via your supply chain.
- Discuss common compliance challenges and how to address them.
- Increase involvement of participants in The Linux Foundation Open Compliance Program (tools, templates, SPDX, etc.).

HPSF Conference 2026

March 16 – 20, 2026 | Chicago, IL

Join us for the 2026 annual HPSF Conference, where the brightest minds in high performance software come together. Hosted by the High Performance Software Foundation (HPSF), this event is dedicated to advancing community-driven solutions for performance, portability, and productivity in a rapidly evolving High Performance Computing (HPC) landscape.

With the growth of AI, accelerated computing, and HPC, this is the moment to drive innovation. Together, we'll explore how open source collaboration and a unified foundation for high performance software can unlock new possibilities for high performance computing systems.

Learn more about what's new with HPSF projects and meet with project communities. Join us to connect, learn, and lead the charge in transforming how we build and use software.

Lunch

\$7,500 • 1 AVAILABLE

Sponsorship includes prominent branding at all lunch stations for one day of the event.

Scholarships

\$2,500 MINIMUM • UNLIMITED

Research shows that more inclusive teams perform better, innovate more, and produce more profitable outcomes. By sponsoring scholarships for underrepresented attendees (women and non-binary individuals, persons from marginalized communities, and persons with disabilities), you are not only helping an individual who might not otherwise be able to join the event, but you're also supporting the overall community in achieving better outcomes. Benefits include:

- Logo and link on conference website.
- Logo recognition on rotating slides before and after keynotes.
- Sponsor recognition in scholarship acceptance notifications.

About PyTorch Conference

7–8 April 2026 | Paris, France

Don't miss your opportunity to shape the future of generative AI/ML! Join us at the PyTorch Conference Europe 2026, where collaboration, innovation, and progress intersect in the cutting-edge open source machine learning framework. This conference brings together leading researchers, developers, and academics, facilitating collaboration and pushing forward end-to-end machine learning.

"This was hands-down one of the best organized and most enjoyable conferences I've been to in the last many years."

"There is a reason why I brought so much of my engineering team here, there is absolutely no replacement for the in-person connection and collaboration that you get from the folks who you're working with regularly in GitHub, on the Pytorch Forums, and even inside your own company."

"You never know where the next conversation will take you and what opportunities it will unlock in your career."

"It has been unanimously saluted as a memorable experience, featuring insightful discussions, innovative ideas, and a collaborative atmosphere that showcased the best of our community."

"Thank you again for creating this standard-setting conference, I am already looking forward to next year's event and the opportunity to continue pushing the boundaries of what's possible with the PyTorch ecosystem."

About Open Source in Finance Forum Toronto

14 April 2026 | Toronto, Canada

The Open Source in Finance Forum Toronto (OSFF) is the premier event that connects the leaders in financial services, technology, and open source innovation. This conference is uniquely designed to foster partnerships, advance talent development and accelerate technological advancements across the finance industry; building faster, trusted and secure solutions.

As open source becomes integral to financial services, OSFF provides companies with the tools to maximize open source collaboration. By strategically contributing to open projects, organizations benefit from reduced development costs, heightened security, top talent, and rapid innovation. GraphQLConf 2026

May 6–7, 2026 | Menlo Park, CA

GraphQLConf — The Official Conference by the GraphQL Foundation

GraphQLConf, presented by the GraphQL Foundation, is a premier event uniting the global GraphQL community to promote education, adoption, and advancement of GraphQL. This conference offers valuable insights through workshops, presentations, and panel discussions, covering best practices, innovative use cases, and the latest advancements in GraphQL. By bringing together a diverse group of developers, architects, and technology enthusiasts, GraphQLConf sets the stage for the ongoing success and expansion of GraphQL and its ecosystem across industries.

Why Sponsor GraphQLConf 2026?

Now in its fourth consecutive year, GraphQLConf will take place in Menlo Park, bringing together the companies and practitioners shaping the future of GraphQL in production. Rapid adoption of AI technologies in the enterprise, coupled with production deployments in high profile organizations such as Airbnb, Atlassian, Audi, CNBC, GitHub, Major League Soccer, Netflix, Shopify, The New York Times, Twitter, Pinterest, and Yelp has put GraphQL in a sustained growth phase. By 2027, more than 60% of enterprises will use GraphQL in production, up from less than 30% in 2024, according to Gartner. As organizations move to scale their technology platforms, GraphQLConf has become the premier venue for understanding how GraphQL is implemented, optimized, and governed in real-world environments.

Are you looking for an effective way to reach a large audience and establish your brand as a thought leader? Sponsoring GraphQLConf is a unique opportunity to gain valuable mindshare with an elite audience that defines how organizations efficiently adopt and expand their usage of GraphQL. Gathering a highly qualified, global audience of developers, architects, platform leaders, and technology decision-makers, GraphQLConf is the foremost opportunity to meet, collaborate, and build with GraphQL leaders. Sponsoring GraphQLConf 2026 is an opportunity to gain meaningful mindshare with developers and decision-makers, while also signaling your organization's investment in a vibrant, interoperable, and community-driven Foundation for the GraphQL ecosystem.

Availability may vary. Contact the GraphQLConf team at graphqlconf@graphql.org to confirm availability, secure your sponsorship, request additional details, or discuss custom options.

seL4 Summit

1–3 September 2026 | Vancouver, Canada

The seL4 Summit is the annual international summit on the seL4 microkernel, the world's most highly assured OS kernel, as well as on all seL4-related technology, tools, infrastructure, products, projects, and people.

The seL4 Summit gathers the seL4 community to learn, share, and connect:

Learn — about the seL4 technology, its latest progress, use, successes, challenges, and plans

Share — exciting seL4 development, research, experience, and applications in the real world

Connect — with other seL4 developers, users, providers, supporters, and potential partners

NEW!

The 2026 edition of the seL4 summit will feature a **full first day dedicated to applications, overviews, and perspectives** on seL4-based systems and formally verified software in the real world. This will be followed by Days 2 and 3 focusing on more technical development, research, reports, and discussions.

We are particularly keen to **welcome people who are new to seL4** or still developing their familiarity with the technology. The event will offer an **ideal opportunity to gain a high-level view of the landscape and ecosystem** of seL4 and its associated tools, frameworks and languages, as well as formally verified software in general, and to take stock of the latest updates.

The program includes a wide range of seL4-related themes and topics:

Themes

- visions, lessons-learned, roadmaps for verified software deployments
- use-cases, deployments, experiences
- walk-throughs and demos of tools, frameworks, systems
- early work, crazy ideas, out-of-the-box thinking
- technical progress, updates, breakthroughs

Topics

- seL4 experience reports
- seL4 and assurance
- seL4 on-going and planned R&D, mature of early stage
- seL4 and hardware

2026 SPONSORSHIP OPPORTUNITIES

Sponsorship Packages

Established in 2020, the seL4 Foundation brings together developers of the seL4 kernel, developers of seL4-based components and frameworks, and those adopting seL4 in real-world systems. Between 2018 and 2025, more than 690 participants took part in the seL4 conferences. Participants come from industry, government and universities and include the creators of the seL4 technology and the research behind it. Many participants are practitioners deploying seL4-based products, as well as industry and government customers.

Your benefits as a sponsor:

- Get strong visibility as a major player in the seL4 ecosystem
- Showcase your seL4-based products, technology and services to target audiences in the field of seL4
- Support the open-source technology and community
- Connect directly with attendees through the expo booth, branding materials, and videos

About MCP Dev Summit

17–18 September | Amsterdam, the Netherlands

Over the past year the [MCP project](#) has quickly reshaped how developers are building AI agents, introducing a critical layer of standardization, and a blueprint for how LLMs can interface with applications and tools. The MCP Dev Summit will bring together MCP co-founders and contributors working on the future of MCP project with developers using it to build the next generation of AI agents.

The MCP Dev Summit is the flagship gathering for builders, contributors, and enterprises advancing AI development with the Model Context Protocol (MCP). We'll kick off each day with keynotes, then continue with three tracks. Sessions will cover topics including the MCP roadmap, security, orchestration, management, observability, registries, as well as how developers are adopting the protocol and building it into their applications.

About PyTorch Conference North America

October 20-21, 2026 | San Jose, CA

Don't miss your opportunity to shape the future of generative AI/ML! Join us at the PyTorch Conference North America 2026, where collaboration, innovation, and progress intersect in the cutting-edge open source machine learning framework. This conference brings together leading researchers, developers, and academics, facilitating collaboration and pushing forward end-to-end machine learning.

"This was hands-down one of the best organized and most enjoyable conferences I've been to in the last many years."

"There is a reason why I brought so much of my engineering team here, there is absolutely no replacement for the in-person connection and collaboration that you get from the folks who you're working with regularly in GitHub, on the Pytorch Forums, and even inside your own company."

"You never know where the next conversation will take you and what opportunities it will unlock in your career."

"It has been unanimously saluted as a memorable experience, featuring insightful discussions, innovative ideas, and a collaborative atmosphere that showcased the best of our community."

"Thank you again for creating this standard-setting conference, I am already looking forward to next year's event and the opportunity to continue pushing the boundaries of what's possible with the PyTorch ecosystem."

About AGNTCon + MCPCon

October 22–23, 2026 | San Jose, CA

AGNTCon + MCPCon is the new flagship annual conference for the open agentic AI ecosystem presented by the Agentic AI Foundation. The event brings together the builders, contributors, and enterprises working across MCP and the broader landscape of agentic AI systems to share learnings, surface common challenges, and advance open, interoperable approaches to building AI agents at scale.

Across keynotes, multi-track technical sessions, and collaborative discussions, **AGNTCon + MCPCon** will explore topics including agent protocols and standards, orchestration and lifecycle management, security and governance, observability and evaluation, and real-world adoption patterns. Sponsors are positioned at the center of a fast-growing open AI ecosystem focused on interoperability, collaboration, and long-term sustainability.

Who Attends

AGNTCon + MCPCon attracts a highly technical and influential audience, including:

- **Developers and contributors** building MCP and other agentic AI projects
- **Project maintainers and foundation leaders** guiding standards and governance
- **Enterprise engineers and architects** adopting agent-based systems in production
- **Platform, infrastructure, and tooling teams** supporting agent orchestration, security, and observability
- **Researchers and academics** exploring the foundations and future of agentic systems

Attendees are practitioners actively shaping how agentic AI is designed, implemented, and deployed. **Between 3,500 and 5,000 attendees are expected at AGNTCon + MCPCon 2026.**

LF Live - a sponsored, live webinar opportunity from The Linux Foundation

LF Live provides a platform for you to:

- ▶ Expand your lead generation efforts.
- ▶ Deliver important and impactful content.
- ▶ Reinforce your company's position in the open source ecosystem as a thought leader, partner and resource.

Webinar Schedule:

5 min: Intro/housekeeping

30 min: Presentation

10 min: Q/A

5 min: Closing

The Details:

Up to 50 minute webinar, including introductions, presentation, Q&A, and closing, presented by sponsor.

Sponsor drives the content by selecting topic and creating title, abstract and presentation deck (think of this as a session proposal for an event - a topic, case study, tutorial, workshop, etc. No sales/product pitching. Must be reviewed and approved by LF).

5 week full production schedule, including 2 weeks of promotion.

Sponsorship Package:

- ✓ Individual webinar webpage showcasing:
 - Webinar's title and abstract
 - Company logo
 - Speaker's picture, title, and bio
 - ✓ Event listing on:
 - events.linuxfoundation.org, under Community Events
 - linuxfoundation.org, under Resources
 - ✓ LF marketing support via 1 email push and posts across all LF social media channels (up to 2 rounds - Twitter, Facebook, LinkedIn, Instagram).
 - ✓ LF to provide snackable graphic for promotional use with webinar title, details and sponsor logo.
 - ✓ LF to provide Event Moderator to assist during webinar with introductions, flow, and Q&A.
 - ✓ Ability for sponsor to hold a giveaway.
 - ✓ Sponsor will receive all leads (registered and attended - name, title, company, email address), within 24 hours of webinar close.
 - ✓ Webinar accessible on LF YouTube channel for up to a year.
-

Our audience is widespread, engaged, and ready to hear from you. Don't miss this chance to get your brand and message in front of the entire open source community. You've invested valuable time and resources into this year's business goals - take this opportunity to connect with customers and drive new prospects.

Opportunity available for \$10,000.
