LF ENERGY SUMMIT EUROPE 2027

Built Together, Running the Grid

29 - 30 September 2027 | Amsterdam, The Netherlands

2027 SPONSORSHIP PROSPECTUS

HOSTED BY LF ENERGY, PART OF THE LINUX FOUNDATION

LF ENERGY SUMMIT EUROPE 2027 | Built Together, Running the Grid

2027 SPONSORSHIP PROSPECTUS

Why Sponsor

Sponsoring LF Energy Summit puts your organization in front of the people shaping what software runs the grid. Utilities and grid operators are the largest group in the room, and the largest job function is the engineers who build and evaluate the tools their organizations adopt. It's also a different kind of visibility. Sponsors are seen backing shared infrastructure the whole industry depends on, alongside the grid operators who use it, at a neutral LF Energy event.

LF Energy Summit Europe 2026 in Berlin drew nearly **500 attendees from more than 180 organizations.**

LF ENERGY SUMMIT EUROPE 2027 | Built Together, Running the Grid

2027 SPONSORSHIP PROSPECTUS

About LF Energy Summit

29 - 30 September 2027 | Amsterdam, The Netherlands

Every grid operator is wrestling with the same problems. Demand is surging from data centers and electrification. Distributed energy resources are changing how power flows. Networks are congested, and operators need to get more out of the grid they already have. The software running all of this is struggling to keep up. Solving these problems one company at a time is slow and expensive. LF Energy, part of the Linux Foundation, gives utilities, vendors, and researchers a neutral place to build that software together, as open source. And it's working: many LF Energy projects already run in production at grid operators.

LF Energy Summit Europe is where that community meets: two days of technical talks, project updates, and the hallway conversations where the next collaboration starts.
