

LINUX STORAGE | FILESYSTEM | MM & BPF SUMMIT

March 24-26, 2025 | Montreal, Canada

2025 SPONSORSHIP PROSPECTUS

About Linux Storage, Filesystem, MM & BPF Summit

Linux Storage, Filesystem, Memory Management & BPF Summit gathers the foremost development and research experts and kernel subsystem maintainers to map out and implement improvements to the Linux filesystem, storage and memory management subsystems that will find their way into the mainline kernel and Linux distributions in the next 24-48 months.

This three-day event, underwritten and managed by The Linux Foundation, is invitation only and employs **a nomination process to determine the 85 members of the community who will attend each year.**

Sponsoring this event not only showcases your company's support of those developers and researchers at the forefront of important innovations in these spaces; it also offers a coveted seat at the table for a member of your organization to affect change at the ground level.
