About MCP Dev Summit

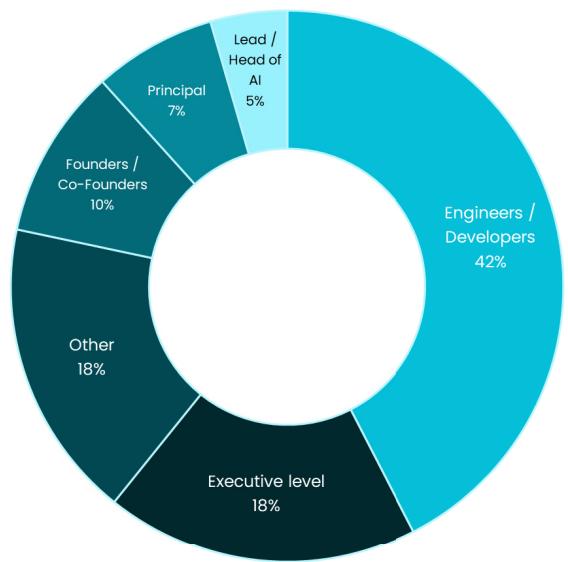

April 2-3, 2026 | New York City, NY

Over the past year the [MCP project](#) has quickly reshaped how developers are building AI agents, introducing a critical layer of standardization, and a blueprint for how LLMs can interface with applications and tools. The MCP Dev Summit will bring together MCP co-founders and contributors working on the future of MCP project with developers using it to build the next generation of AI agents.

The MCP Dev Summit is the flagship gathering for builders, contributors, and enterprises advancing AI development with the Model Context Protocol (MCP). For 2026 the MCP Dev Summit will be expanding to two days. We'll kick off each day with keynotes, then continue with three tracks. Sessions will cover topics including the MCP roadmap, security, orchestration, management, observability, registries, as well as how developers are adopting the protocol and building it into their applications.

What to Expect

- Expected attendance 1,000
- 40+ sessions
- Hear directly from MCP maintainers & co-creators
- Expo space with high traffic, networking reception
- Opportunities to connect with MCP champions

Sponsorships are very limited and will sell out quickly — if you would like to be a part of this event please contact the team at sponsorships@linuxfoundation.org.
