About Open Source in Finance Forum

September 30-October 1, 2024 | New York, NY

The Open Source in Finance Forum is a conference for experts across financial services, technology and open source to deepen collaboration and drive innovation across the industry in order to deliver better code faster.

Financial services firms make extensive use of open source, and are now starting to take full advantage of this incredible resource. By becoming strategic contributors to open source projects, companies decrease development costs, improve security, attract developers, and innovate faster. This event will showcase recent developments and the direction of open source in financial services; provide practical knowledge and guidance on best practices, tools and technologies; explore how to build a successful community; and provide unparalleled opportunities to network with the executives and individuals driving open source in financial services.

We want to give the best value possible for sponsors of OSFF, whether you are a FINOS Member or not. Your sponsorship shouldn't just be a single transaction, it should be part of an integrated plan to capture the attention of the FINOS Community not just once, but multiple times.

In all of our marketing, but especially for sponsorship of OSFF, we believe in the power of the "story arc." We want to give sponsors and members the opportunity to connect with the FINOS Community, as well as OSFF attendees multiple times throughout the year. By the time you get to OSFF at your sponsor table, your interactions with attendees are not the climax, but actually the denouement ("the final part of a play, movie, or narrative in which the strands of the plot are drawn together and matters are explained or resolved").

Our sponsorship levels give you the ability to be part of podcasts, blog posts, social posts, that hit the entire FINOS Ecosystem, as well as additional opportunities to participate in webinars and in-person meetups that hit specific communities and interests around open source regulation in finance, interoperability (desktop and others), open source readiness (compliance, OSPOs, etc), and then the technical projects that live in the [FINOS landscape](#).

If you're looking for a custom package, please reach out to us at sponsorships@linuxfoundation.org so that we can make sure the sponsorship meets your company's goals.

Additional sponsorship opportunities:

- Open Source in Finance Forum (London) - June 26, 2024
- FINOS Research Studies, Hackathons, Meetups, & Webinars
- FINOS Open Source in Finance Podcast

2024 Event Topics

OSS Projects & Standards

- Including opportunities in data and data management, cloud, open standards, regulation, desktop interoperability, and more.

ABOUT FINOS

FINOS (The Fintech Open Source Foundation) is a nonprofit whose mission is to foster the adoption of open source, open standards, and collaborative software development practices in financial services. It is a regulatory compliant platform at the center of open source, enabling the financial services industry to develop new technology projects and standards that have a lasting impact on business operations. FINOS counts over 70 major financial institutions, fintechs, and technology consultancies as part of its membership. FINOS is also part of the Linux Foundation, the largest shared technology organization in the world. For more information, visit www.finos.org.
