

AT EMBEDDED WORLD 2027

March 16-18, 2027 | Nuremberg, Germany

2027 SPONSORSHIP PROSPECTUS

RISC-V: Powering the Embedded Ecosystem in 2027

In March 2027, the global embedded community will once again gather in Nuremberg, Germany, for embedded world. How will your organization stand out and demonstrate its technology leadership? A presence in the RISC-V Pavilion puts your company at the center of the conversation.

Your participation begins with a dedicated demo kiosk—a space to connect directly with attendees and showcase your latest products, solutions, and innovations. Extend your reach with a 10-minute presentation in our new RISC-V ‘Sound Stage’, plus a two-minute company pitch during our Lightning Talk. You will also have the opportunity to take part in a two-minute video interview all featured on the RISC-V YouTube channel. All these benefits are your take aways to use in your internal marketing.

Share your expertise, communicate your vision and road map, highlight customer success stories, or introduce an exciting new product. At the RISC-V Pavilion, your organization has the platform to be seen and heard.

You will join leading companies and innovators from across the RISC-V ecosystem, while gaining access to the approximately 27,000 high-quality attendees expected at embedded world 2027.

RISC-V will actively promote your participation before, during, and after the event. Promotional benefits include:

- Recognition as a co-exhibitor in the embedded world 2027 event program.
- Coverage in RISC-V pre-event marketing emails, newsletter and blog content.
- Inclusion in RISC-V post-event communications.
- A feature in the RISC-V embedded world highlights video.
- Your logo displayed across relevant RISC-V event web pages.

Together, these opportunities create a powerful platform for increasing visibility, building relationships, and generating meaningful engagement at one of the embedded industry's most important events.

Explore the available sponsorship packages and discover how RISC-V can help your organization make the most of embedded world 2027.

Space is limited. Contact lori@riscv.org to secure your sponsorship.
