Due to continuing COVID-19 safety concerns, we are transitioning KVM Forum to a virtual experience. As our physical event shifts to a virtual one, we are taking thoughtful actions to create an immersive digital experience for all event participants.

We’re excited to invite you to sponsor the re-imagined KVM Forum 2020 - a virtual experience where we will continue to shape the future of open source, together.

Sponsor benefits include many of those that existed previously for the face to face event, as well as many new ones! In addition, a virtual event vastly expands the number of attendees you can reach around the world.
KVM Forum is a highly technical conference, bringing together the developers who drive KVM development and the users who depend on KVM as part of their offerings, or to power their data centers and clouds. We invite you to be part of this important event.

The agenda will include sessions on the state of the KVM virtualization stack, planning for the future, and many opportunities for attendees to collaborate. After more than nine years in the mainline kernel, KVM continues to be a critical part of the FOSS cloud infrastructure. Come join us in continuing to improve the KVM ecosystem.

Who Attends?

350+ C-Level, Principal, Director, and Technical Leads from prominent organizations, along with Architects, Engineers and Programmers gather annually.

- 2019 Attendees came from companies including: Alibaba, Amazon, AMD, Apple, ARM, Cisco, Citrix, Dell, Freescale, Fujitsu, Google, HP, Huawei, IBM, Igalia, Intel, Linaro, NEC, Odin, Oracle, Red Hat, Samsung, Siemens AG, SUSE, Xilinx and many more.

Benefits of Sponsorship:

- Connect with upstream contributors and maintainers from all over the world.
- Learn about the latest features in libvirt, QEMU, KVM and other kernel components related to KVM.
- Learn what other companies are doing with KVM technology.
- Collaborate with engineering managers from other companies.
- Discuss strategic partnerships with technical product managers from other companies.
### Virtual Experience

### Sponsorship Cost

- **Sponsorship Cost**
  - PLATINUM: $20,000
  - GOLD: $10,000
  - SILVER: $5,000

Contact us at sponsorships@linuxfoundation.org to secure your sponsorship, request additional details or discuss custom options.

The Linux Foundation reserves the right to increase/decrease the number of available sponsorships and update deliverables based on venue restrictions.
Open source communities are nearly always virtual and distributed, so when they get together face to face, they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation Events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today’s technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and marketing, and necessary to build, scale, and sustain critical open source projects and communities. As the home of over 200 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike for-profit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.
