Due to continuing COVID-19 safety concerns, we are transitioning Open Source Summit Japan + Automotive Linux Summit to a virtual experience. As our physical event shifts to a virtual one, we are taking thoughtful actions to create an immersive digital experience for all event participants.

We’re excited to invite you to sponsor the reimagined Open Source Summit Japan + Automotive Linux Summit 2020 - a virtual experience where we will continue to shape the future of open source, together.

Sponsor benefits include many of those that existed previously for the face-to-face event, as well as many new ones! In addition, a virtual event vastly expands the number of attendees you can reach around the world.

**Event Participants will be able to:**

- Attend informative educational sessions and tutorials, and participate in a live speaker Q&A
- Join the ‘hallway track’ and collaborate via topic-based networking lounges in a group chat, plus connect with attendees in a 1:1 chat
- Visit the virtual sponsor showcase and booths, and speak directly with company representatives, view demos, download resources, view job openings, and share contact info
- Gamify their event experience, earning points and winning prizes by attending sessions, visiting sponsor booths, answering trivia questions and more!
- Benefit from on-demand content post event, to view sponsor resources and conference sessions for a year

**OPEN SOURCE SUMMIT JAPAN + AUTOMOTIVE LINUX SUMMIT 2020**

**IS NOW A VIRTUAL EXPERIENCE,**

**HAPPENING DECEMBER 2-4, 2020.**
December 2-4, 2020 | Virtual Experience

Open Source Summit is the leading conference for developers, architects and other technologists – as well as open source community and industry leaders – to collaborate, share information, learn about the latest technologies and gain a competitive advantage by using innovative open solutions.

Open Source Summit connects the open source ecosystem under one roof. It covers cornerstone open source technologies; helps ecosystem leaders to navigate open source transformation; and delves into the newest technologies and latest trends touching open source. It is an extraordinary opportunity for cross pollination between the developers, sysadmins, DevOps professionals, IT architects, and business & community leaders driving the future of technology.

---

**Attendees join the event to:**

- Learn about the latest trends in open source and automotive
- Explore career opportunities with the world’s leading technology companies
- Access leading experts to learn how to navigate the complex open source environment
- Find out how others have used open source to gain efficiencies and increase innovation internally
- Gain a competitive advantage learning about new innovative open solutions & technologies.
- Find out what industry-leading companies and projects are doing in the future, and where technologies are headed

**Sponsorships offer a multitude of benefits:**

- Valuable mindshare from developers, technologists and business leaders
- Increase brand awareness & recognition
- Thought Leadership
- Talent Recruitment
- Media Coverage
- Showcase Products & Technologies
- Create New Partnerships
- Generate Sales Leads
- Community participation in your projects and alliances & customers
- Support the important work of the open source community

---

2,000+ Attendees Are Expected to Join the 2020 Virtual Event.
1000+ Attendees from 284 organizations across 40 countries

Sponsors generated up to 213 leads in exhibit booths

96% of attendees visit exhibit booths onsite

More than 75 senior executive and C-level decision-makers joined the event

66% of attendees were in technical positions

95% of attendees found the event a valuable use of time and plan to attend again in the future

From our presentation in #OSSummit in Tokyo, thanks again for all the awesome contributions from the Japanese community to #OpenAPI #Generator. 🍣 🍣 🍣 Looking forward to the next Open Source Summit. #OpenSource #AutoLinux #OSSummit

Great panel session moderated by @stevenphatan at #OSSummit Tokyo. Very interesting to learn from end users what challenges they are facing in cloud native storage management.

Knowledge is power. Documenting knowledge encourages equity and inclusion. 😊 #OSSummit

Very much enjoyed being part of the Civil Infrastructure Platform team at #OSSummit Japan @linuxfoundation - great team, great event!

A great week in Japan for @linuxfoundation #OSSummit 2019 and @IBMJapan! office to discuss #OpenSource & @IBMDeveloper transformation. Thank you to all my community friends and @IBM colleagues! どうもありがとうございました! @tmmoore_1 @bradtopol @wtejada223 @rvlord @CalForCode

Great presentation by Xing and Takei-san on building telemetry and anomaly detection for storage #opensds #OpenDataAutonomy #events #OSSummit

At #OSSummit with @HarshitPrasad8. Amazing speakers lined up and great experience. 😊⁺ #OSSummit #LinuxFoundation

Had the best time in Japan at @linuxfoundation #OSSummit. Thanks to @codethink for sending me!
BENEFITS OF SPONSORING

- Generate new partnerships, alliances & customers
- Increase brand awareness & recognition
- Showcase your thought leadership
- Demonstrate support for the Linux & open cloud communities
- Take advantage of media exposure & PR announcements
- Showcase products, services & technologies
- Leverage highly targeted marketing opportunities
- Recruit and acquire top talent

**Keynote sessions are not eligible to receive the opt-in attendee contact list. Keynote sessions also do not allow for a link of sponsors choice to be provided to attendees viewing the keynote.

The Linux Foundation reserves the right to increase/decrease the number of available sponsorships and update deliverables based on venue restrictions.
Open source communities are nearly always virtual and distributed, so when they get together face to face, they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation Events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today’s technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and marketing, and necessary to build, scale, and sustain critical open source projects and communities. As the home of over 200 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike for-profit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.

Contact us today for more information on sponsoring at sponsorships@linuxfoundation.org.
