@lisancoa
#OSSummit has by far been the most passionately inclusive conference I have been to thus far. From washroom signs, to the abundance of diversity talks, and the people themselves- the commitment to changing the face of #tech has been unreal. I hope other conferences take note!

Attending OSS and ELC from Munich, Germany. It is awesome. #ossmit and #felc

Georg J.P. Link @GeorgLink · 1h
I’m appreciating the live captioning on the #OSSummit virtual conference platform. I’d like to think that I’m proficient in English, but being able to see what was said is helpful to digest the flood of information. (Especially as other channels vie for attention as well).

Fernando Ike @fernandoike · 59m
It’s really awesome to watch people to talk for many countries in the #ossmit. It would be impossible to see something like that in a physical event. Thanks, @linuxfoundation. #goremove

OSS is amazing. So many people gathered with a high technical level - all aiming to learn and network. I encourage you to attend the next time, the experience was incredible.

The best inclusive conference of the year. Talks, people, sponsors and projects are just amazing.

A great event to connect with smart people who share a passion for open source!

The best open source event.

I managed to attend every edition of the Embedded Linux Conference since the beginning. I always get back from the conference with a huuuuge list of new ideas to explore. This conference is a great way to stay up to date with the developments in open-source projects that matter in embedded, and to meet the maintainers and fellow developers.

The keynotes were spot-on interesting and inspirational. I really enjoyed the conference this year and the open source and community activism sessions.

This was my first attendance to the ELC. I have strong system skills but I only did minor developments in Linux kernel up to now so I was wondering how I would feel among all those Linux experts... My fear was not justified! I really appreciated the atmosphere of this conference, with a very good spirit and full inclusion of all attendees. Experts are essentials to animate this event but beginners are really welcome!
