KubeCon + CloudNativeCon North America 2021 is being planned as a “hybrid event” - an in-person event at the Los Angeles Convention Center with a virtual component for those that cannot attend onsite. We will take all necessary precautions to ensure the safety of those who attend the event in person.

Sponsorship packages include onsite and virtual benefits to maximize the reach and visibility of each participating organization. All benefits are optional. Given the fluid COVID-19 situation, CNCF reserves the right to make minor adjustments to sponsorship benefits and to increase/decrease the number of available sponsorships.

Who Attends?
Developers, architects and technical leaders, CIOs, CTOs, press and analysts from around the world gather at KubeCon + CloudNativeCon.

Benefits of Sponsorship:

- Engage with the industry's top developers, end users, and vendors – including the world's largest public cloud and enterprise software companies as well as hundreds of innovative startups.
- Inform and educate the cloud native community about your organization's products, services, open source strategies, and cloud native direction.
- Take advantage of a professionally-organized conference run by a neutral nonprofit where content is curated by the community.
- Meet with developers and operations experts ranging from startup CTOs to corporate developers to senior technology executives from all over the world.
- Associate your brand with one of the fastest-growing technology communities.
- Support and engage with the ecosystem and the community that is the engine driving some of the highest velocity open source projects in the industry.
- Give back to the open source community. CNCF reinvests profits from our events to directly support CNCF’s hosted projects.

The Cloud Native Computing Foundation’s flagship conference gathers top technologists from leading open source and cloud native communities to further the education and advancement of cloud native computing.

KubeCon + CloudNativeCon + Open Source Summit China 2021 is being planned as a “hybrid event” - an in person event with a virtual component for those that cannot attend in person. We will take all necessary precautions to ensure the safety of those who attend the event in person. We are evaluating virtual components and will be excited to share details as they become available.

Given the fluid COVID-19 situation, this may change, and we may need to once again pivot from a hybrid event to a virtual event. In the event we need to pivot from a hybrid to a virtual event:

- We will make the decision and notify all participants at least 3 months in advance.
- Sponsors will, at that time, be presented with the new virtual event sponsorship pricing and benefits, and will have 14 days to choose whether to transfer their sponsorship to the virtual event, apply a credit to a future CNCF event in 2022 or receive a full refund.

The Linux Foundation and Cloud Native Computing Foundation reserve the right to make minor adjustments to sponsorship benefits and to increase/decrease the number of available sponsorships.
