Quick Facts

• 2021 is being planned as a hybrid event, with both in-person and virtual event components.

• 2 full days of programming, featuring both business and technical sessions, created for the community, by the community, including interactive keynotes, live Q&A, conference sessions, tutorials, collaboration opportunities and more.

• We expect the 2021 hybrid event to gather over 1,700 attendees.

• The Open Networking & Edge Summit 2020 Virtual Experience gathered 1,778 live attendees from 523 organizations in 71 countries around the globe.
Open Networking & Edge Summit is the ONE Event for End to End Connectivity Solutions powered by Open Source. It enables the collaborative development necessary to shape the future of networking and edge computing. In 2021, Kubernetes on Edge Day will be hosted as part of ONE Summit.

Open Networking & Edge Summit is the only event for the networking & edge computing industries that:

• Crosses enterprises, government, global service providers and cloud.
• Focuses on open first. In a market now built on open source, this is critical.
• Gathers both the executives making decisions and the developers creating the code to participate, plus everyone in between.

• Is produced by the leading neutral organizations committed to innovation in networking, edge and other technology areas required for end to end solutions: LF Networking, LF Edge, CNCF, Hyperledger, ORAN, AGL, LF AI & Data, Magma, LF Energy and more.

• Kubernetes on Edge Day gathers developers and adopters to share their lessons learned in building, breaking, and bettering their edge infrastructure on top of Kubernetes.

In short, the event enables the collaborative development necessary to shape the future of networking and edge computing.
Why Sponsor

Sponsoring ONE Summit + Kubernetes on Edge Day puts your company, products and technologies directly in front of key decision makers and business and technical leaders across a multitude of industry verticals.

This event is a critical forum for companies to strengthen their brand, establish thought leadership, connect with both end-user customers and partners, showcase innovative products and drive transformation across networking and edge computing.

Why The Community Attends

• To hear the latest updates, new innovations & best practices across pivotal topics in open networking & edge computing.

• To explore career opportunities with the world’s leading technology companies.

• To educate themselves across a range of topics in both business and technical sessions.

• To hear straight from the developers, architects and business leaders who are creating the future of 5G, ORAN, Edge Computing, AI, Cloud Native & IoT.

• To access open networking and edge technical, business and community leaders and learn how to navigate and get involved in the community.

• To experience the latest open source innovations across networking and edge with community-driven demos in the LF Networking and LF Edge Pavilion.

• To find out what industry-leading companies and projects are doing in the future, and where technologies are headed.
