@lisancao
#OSSummit has by far been the most passionately inclusive conference I have been to thus far. From washroom signs, to the abundance of diversity talks, and the people themselves- the commitment to changing the face of #tech has been unreal. I hope other conferences take note!

About Open Source Summit Japan + Automotive Linux Summit

Join us at the premier event for open source developers, technologists and leadership to collaborate, share information, and gain knowledge, furthering open source innovation in software development and helping to create more sustainable open source ecosystems.

Open Source Summit (OSS) covers both pivotal cornerstone technologies, as well as new and emerging open source projects and technologies. Open source software and technologies are a leading indicator of where companies are investing resources for technology development. By bringing the latest open source projects and leading technologists together in one place, Open Source Summit has become a forum for defining and advancing technology development in the years ahead.

Automotive Linux Summit (ALS) gathers the most innovative minds leading and accelerating the development and adoption of a fully open software stack for the connected car. The open source community and automotive industry gather here for collaboration and shared learnings to drive innovation of embedded devices in the automotive arena.

Quick Facts

• 2021 is being planned as a virtual event.
• 3 full days of programming, including interactive keynotes, live Q&A, conference sessions, tutorials, collaboration opportunities and open source project mini-summits delivered by some of the brightest minds across the open source ecosystem.
• 1000 people have joined this event annually and are expected to attend in the 2021 virtual event.
