RISC-V: PAVING THE WAY FOR THE NEXT 50 YEARS OF COMPUTING

The RISC-V Pavilion at embedded world 2022 will connect the community to show the power of open collaboration.

Exhibit in the RISC-V Pavilion and showcase your role in the community and tell the story of how your products and services have contributed to the exponential growth of RISC-V in the semiconductor and processor industries.

Whether your organization is in the embedded area, security, or one of the many industries where RISC-V is gaining fast acceptance, sponsoring will demonstrate your leadership, gain valuable mindshare of a targeted audience, and show your support for the open RISC-V ISA.

Together we are shaping the Open era of computing.

- **Inform and educate the RISC-V community** about your organization's products, services, open collaboration strategies, and RISC-V direction.

- **Meet with community enthusiasts** ranging from startups to multi-nationals, from developers to luminaries, from technology creators to C-Suite decision makers across the broad range of industries where RISC-V technologies are used.

- **Associate your brand** with one of the fastest-growing open source hardware technologies.

- **Support and engage with the RISC-V ecosystem,** community, and the industry's top developers, end users, research and academic organizations, and vendors.

- **Give back to the open source RISC-V community.** RISC-V strives to keep our events cost-neutral. Any profits from the event are reinvested to support RISC-V community and technical activities.

- **Take advantage** of a professionally-organized conference run by a neutral nonprofit with content curated by the community.

RISC-V®
AT EMBEDDED WORLD 2022

Contact sponsor@riscv.org to secure your sponsorship! Sponsorship Deadline: October 29, 2021

	$8500
Kiosk: 1m wide demo kiosk with 2 stools, graphics, 42" monitor, (1) 5amps power strip, and wifi	X
Speaking Opportunity: (3) 15-minute speaking slots in the RISC-V booth demo theater	X
Lead Retrieval Device: Live scans, real time reporting, and ability to take notes on captured leads	1
Bookable Meeting Tables: Tables provided within the booth to book meetings with media	X
Social Media Reshare: 1 social share from RISC-V Twitter and LinkedIn	X
Blog Post on riscv.org with a social share on Twitter and LinkedIn	X
Recognition in Pre-Event Email: Sent to the RISC-V list. Includes link to your URL	X
Listed as an Co-Exhibitor with Embedded World: Includes logo and company description	X
Recognition on Event Website: Prominent logo display on all event web pages	X
Embedded World Exhibitor Passes: To gain access to the Embedded World show floor (Does not include access to the technical conference)	2
