# 2022 SPONSORSHIP PROSPECTUS

LF Networking events bring together technical decision makers and implementers across the Networking and Edge ecosystems to advance the state of open source networking across Access, Edge, and Cloud. With a focus on operational best practices, collaboration across all aspects of 5G and enterprise networking, and technical innovation, these events provide a forum for hands-on and interactive activities. In June 2022, the LFN Developer & Testing Forum will be hosted as a stand-alone event in Porto, Portugal, June 13-16, and again immediately following ONE Summit (November 17-18, 2022.) Registration and sponsorships are available for all events.

**ONE Summit | November 15-16, 2022 | Seattle, WA**

**Bringing the hallway track in**

ONE Summit is the *only* industry event bringing together technical and business decision makers for in-depth, interactive conversations around potential of cutting-edge innovations and the operational support necessary to leverage them.

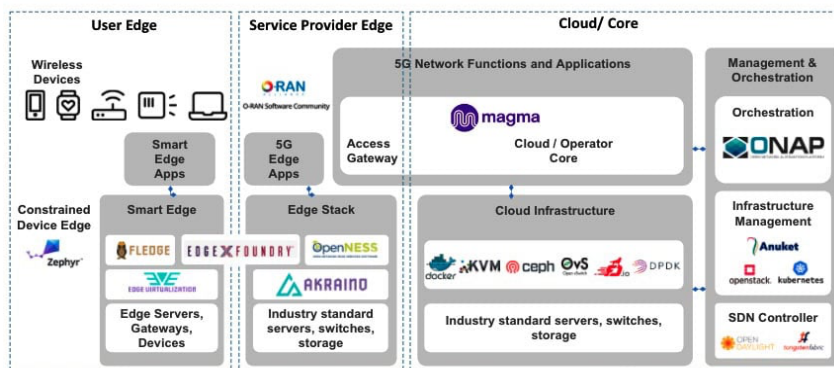

Newly revamped post-pandemic, ONE Summit’s focus will be on enabling interactive, real-world conversations on the evolution of networking and edge advancements and the relevant reaggregation of these technologies to solve business needs. Inspired by the impact of integration efforts like 5G Super Blueprint, ONE Summit will foster collaborative discussion required to truly scale software for 5G, IoT, the enterprise, and beyond. With sessions geared toward both Communications

Service Providers and enterprise verticals requiring advanced networking capabilities through Core, Access, and Edge. Attendees will learn how to leverage open source ecosystems and gain new insights for digital transformation.

**ONE Summit:**

- Crosses enterprises, government, global service providers and cloud.
- Focuses on open first. In a market now built on open source, this is critical.
- Gathers networking decision makers across both architectural and technical issues and addresses business use case needs.
- Is produced by the leading neutral organizations committed to innovation in networking, edge

- and other technology areas. Building on the successes of LF Networking and LF Edge, projects, collaboration with O-RAN SC, Magma, CNCF, LF AI & Data will enable attendees to visualize and build their new networking stacks.
- In short, the event enables technical and business collaboration necessary to shape the future of networking and edge computing.

## Who Attends?

**LFN Developer & Testing Forum**  
**June 13-16, 2022 | Porto, Portugal**  
**November 17-18, 2022 | Seattle, WA**

LFN Developer & Testing Forum is the primary technical event for the LFN project communities. During these collaborative events, community members converge via sessions, workshops, tutorials, and demos to further project releases; discuss project architecture, direction, and integration points; and further innovate through the open source networking stack. The best way to learn about open source is through participation and newcomers are welcome! In 2022, the LFN Developer & Testing Forum will be hosted immediately following ONE Summit, November 17-18, 2022. Sponsorships are available for both events.

#### Who Attends?

- LF Networking community members from across the open networking ecosystem.
- Project representation from LFN Projects **Anuket, EMCO, FD.io, L3AF, ODIM, ONAP, OpenDaylight, Tungsten Fabric, XGVela**, and special initiatives like the **5G Super Blueprint** and **End User Advisory Group**.
- Attendees represent a range of industry sectors, including **Telecommunications, Networking, Retail, Government, IT, Cloud, Non-Profit, and Software**.
- Attendee job functions include **Architect, Engineer, Developer, Program/Project Manager, Researcher, and Executive**.

#### Why Sponsor?

- LFN Developer & Testing Forum is where the work gets done – sponsorship is a signal of your support for these integral communities.
- These events are produced free of charge for attendees, enabling an accessible and supportive forum for crucial LF Networking project development.
- Roughly a third of attendees are from network operators, creating a unique and valuable environment for working side-by-side collaboration across the ecosystem.
- **Attendees report a 90%+ satisfaction rating.**
