

**MARCH 14 - 16, 2023 | NUREMBERG, GERMANY**

## **How Will You Demonstrate Your Embedded Leadership This Year?**

The world again turns its attention to embedded systems this March. Are you ready?

With attendees from all around the world, over 18,000, if we're being technical, there is a lot to gain from the embedded world 2023 (ew23) experience. The opportunities at this exhibition and conference are endless but here are a few reasons embedded world 2023 is a can't miss opportunity for you and your organization:

### **Grow Customers**

As mentioned before embedded world draws thousands of visitors from around the world each year. Invite your network, whether they are current customers or potential, you'll be at the hub of activity by exhibiting in our pavilion.

### **Find Talent**

Meet the global community face-to-face and find your next hire — from new college graduate to seasoned architect, embedded world 2023 is the highest level of knowledge transfer between applied research and innovative product development.

### **Cultivate Partnerships**

ew23 has a unique integration of important national and international industry associations. Ready to take your organization to the next level? You may find your next partner here.

### **Enable Engineers**

Equip customers with the latest knowledge and innovations from your engineers, engage with experts, and tackle technical challenges together. Inspire your team to strive for excellence.
