Linux Foundation Events are where 90,000+ developers and technologists from across the globe meet to share ideas, learn and collaborate to drive innovation.

Open source communities are nearly always virtual and distributed, so when they get together face to face they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation Events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today's technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and ecosystem development necessary to build, scale, and sustain critical open source projects and communities. As the home of over 400 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike for-profit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.

About Cassandra Summit

March 13-14, 2023 | San Jose, CA

It’s time for the Apache Cassandra® community to gather again! Since a small group of distributed systems engineers gathered for the first Cassandra Summit, Apache Cassandra has grown into a worldwide phenomenon that powers critical workloads. The project’s velocity is up, and its most exciting years are ahead. It’s time to show how organizations everywhere are bridging Cassandra to the future, at Cassandra Summit 2023.

Cassandra Summit is a two-day, vendor neutral event where the industry will connect to share best practices and use cases, celebrate makers and users, forge critical relationships, and learn about advancements in the Apache Cassandra ecosystem.

The event will feature keynotes, hands-on labs, sessions, and the popular hallway track. There will also be many places to make community memories in a festival-like atmosphere with experiential, interactive exhibits and entertainment breaks.

Apache Cassandra is in use at organizations of all sizes like Ably, Apple, Backblaze, Bloomberg Engineering, Flant, Home Depot, Instana, Liquibase, Netflix, Target, Yelp, and thousands of other companies that have large, active data sets.

Cassandra Summit 2023 Topics

• Developing applications with Cassandra
• Cloud-native deployments and strategies
• Ecosystem tools that leverage Cassandra
• What’s coming for future Cassandra versions
• Use cases and sharing about best practices

About Linux Storage, Filesystem, MM & BPF Summit

May 8-9, 2023 | Vancouver, BC

Linux Storage, Filesystem, Memory Management & BPF Summit gathers the foremost development and research experts and kernel subsystem maintainers to map out and implement improvements to the Linux filesystem, storage and memory management subsystems that will find their way into the mainline kernel and Linux distributions in the next 24-48 months.

This three-day event, underwritten and managed by The Linux Foundation, is invitation only and employs a nomination process to determine the 85 members of the community who will attend each year.

Sponsoring this event not only showcases your company’s support of those developers and researchers at the forefront of important innovations in these spaces; it also offers a coveted seat at the table for a member of your organization to affect change at the ground level.

Embedded Open Source Summit

June 27-30, 2023 | Prague, Czech Republic

About the Summit
Embedded computing systems are essential to the operation of electronic devices and systems across a wide range of industries, and the Linux Foundation is host to numerous open source projects dedicated to this space.

Embedded Open Source Summit (EOSS) is a new umbrella event for open source embedded projects and developer communities to come together under one roof for important collaboration, discussions and education.

The event is composed of micro conferences including Embedded Linux Conference and Zephyr Developer Summit. Micro conferences will include presentations, BoFs, training, workshops and min-conf sessions designed for real time problem solving and deep discussion. Additional micro conferences in the EOSS umbrella will be announced soon. The conference will take place Tuesday, June 27-Friday, June 20 with optional co-located events and training on Monday, June 26.

Who Attends
• Developers: Kernel Developers, System Developers and User Space Developers
• Architects
• Product Vendors

Why Attend Embedded Open Source Summit?
• Learn about the newest and most interesting embedded technologies and projects in a vendor-neutral setting.
• Get access to leading experts in both formal and informal settings.
• Have fascinating discussions and collaborate with both peers and experts in embedded Linux and adjacent projects
• Gain a competitive advantage with innovative embedded solutions.

Why Sponsor
Sponsoring Embedded Open Source Summit gives you the opportunity to reach a diverse and multi-faceted audience of practitioners, in one place. Many organizations are engaged in a number of the technology areas covered at Embedded Open Source Summit, making this the one conference providing you the opportunity to connect with many communities at one event and to achieve a variety of sponsorship goals:

1. Increase brand awareness & recognition
2. Showcase thought leadership
3. Recruit and acquire top talent
4. Generate sales leads and customers
5. Leverage highly targeted marketing opportunities
6. Take advantage of media exposure & PR announcements
7. Display products, services & technologies
8. Create new partnerships & alliances
9. Gain valuable mindshare from developers, technologists and business leaders
10. Demonstrate support for the important work of the open source community

About The Linux Foundation Member Summit

October 24-26, 2023 | Monterey, CA

Where industry leaders convene to drive digital transformation with open source technologies and learn how to collaboratively manage the largest shared technology investment of our time.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver innovative products and services to their users and customers, companies must learn directly from the senior technologists and thought leaders who steer the most widely used and influential projects.

The Linux Foundation Member Summit (formerly Open Source Leadership Summit) is the annual gathering for Linux Foundation member organizations. The event fosters collaboration, innovation, and partnerships among the leading projects and organizations working to drive digital transformation with open source technologies. It is a must-attend for business and technical leaders looking to advance open source strategy, implementation and investment in their organizations and learn how to collaboratively manage the largest shared technology investment of our time.

For sponsors, it is an excellent opportunity to gain access to the event and the attendees for strategic discussions and collaboration.

"The only event where I can meet all of the key leaders across the open source cloud computing projects in person. The chance to talk in person, share aspirations and wrestle with new ideas this year have already resulted in collaboration...The institutional knowledge about open source represented by the participants is inspiring. This is an event that can help us build a better software industry."

— Sam Ramji, Chief Strategy Officer, DataStax

About Open Compliance Summit

Fall, 2023 | TBA

The Open Compliance Summit is an exclusive event for Linux Foundation members and select invitees. The summit provides a neutral environment for participants from different companies and different backgrounds to:

- Discuss and exchange compliance best practices (processes, policies, guidelines, tools, open source governance, etc.).
- Discuss common compliance challenges and how to address them.
- Increase awareness on implementing and managing a compliance program, and managing compliance via your supply chain.
- Increase involvement of participants in The Linux Foundation Open Compliance Program (tools, templates, SPDX, etc.).

- Diamond: $75,000
- Platinum: $40,000
- Gold: $15,000
- Start-Up: $5,000
The Cloud Native Computing Foundation’s flagship conference gathers adopters and top technologists from leading open source and cloud native communities to further the education and advancement of cloud native computing.

**Benefits of Sponsorship:**

- Engage with the industry’s top developers, end users, and vendors – including the world’s largest public cloud and enterprise software companies as well as hundreds of innovative startups.
- Inform and educate the cloud native community about your organization’s products, services, open source strategies, and cloud native direction.
- Take advantage of a professionally-organized conference run by a neutral nonprofit where content is curated by the community.
- Meet with developers and operations experts ranging from startup CTOs to corporate developers to senior technology executives from all over the world.
- Associate your brand with one of the fastest-growing technology communities.
- Support and engage with the ecosystem and the community that is the engine driving some of the highest velocity open source projects in the industry.
- Join CNCF’s hosted projects such as containerd, CoreDNS, Envoy, etcd, Fluentd, Harbor, Helm, Jaeger, Kubernetes, Linkerd, Open Policy Agent, Prometheus, Rook, SPIFFE, SPIRE, TiKV, TUF, Vitess, and many more - and help bring cloud native project communities together.
- Give back to the open source community. CNCF reinvests profits from our events to directly support CNCF’s hosted projects.

**Event Dates:**

April 17 - 18: Pre-Event Programming
April 19 - 21: Main Conference

**Location:** RAI, Amsterdam, The Netherlands + Online

**Estimated Number of Attendees:**

8,000+ Onsite | 6,000+ Virtual

**Who Attends?** Developers, architects and technical leaders, CIOs, CTOs, press and analysts from around the world gather at KubeCon + CloudNativeCon.

Given the continuing fluidity of COVID-19, the format of the event is subject to change. If this should happen, sponsors will be notified of said changes and options will be made available to them as early as possible.

LF Live - a sponsored, live webinar opportunity from The Linux Foundation

LF Live provides a platform for you to:

- Expand your lead generation efforts.
- Deliver important and impactful content.
- Reinforce your company’s position in the open source ecosystem as a thought leader, partner and resource.

Webinar Schedule:
5 min: Intro/housekeeping
30 min: Presentation
10 min: Q/A
5 min: Closing

The Details:

Up to 50 minute webinar, including introductions, presentation, Q&A, and closing, presented by sponsor.

Sponsor drives the content by selecting topic and creating title, abstract and presentation deck (think of this as a session proposal for an event - a topic, case study, tutorial, workshop, etc. No sales/product pitching. Must be reviewed and approved by LF).

5 week full production schedule, including 2 weeks of promotion.
Sponsorship Package:

✓ Individual webinar webpage showcasing:
  ▪ Webinar’s title and abstract
  ▪ Company logo
  ▪ Speaker’s picture, title, and bio

✓ Event listing on:
  ▪ events.linuxfoundation.org, under Community Events
  ▪ linuxfoundation.org, under Resources

✓ LF marketing support via 1 email push and posts across all LF social media channels (up to 2 rounds - Twitter, Facebook, LinkedIn, Instagram).

✓ LF to provide snackable graphic for promotional use with webinar title, details and sponsor logo.

✓ LF to provide Event Moderator to assist during webinar with introductions, flow, and Q&A.

✓ Ability for sponsor to hold a giveaway.

✓ Sponsor will receive all leads (registered and attended - name, title, company, email address), within 24 hours of webinar close.

✓ Webinar accessible on LF YouTube channel for up to a year.

Our audience is widespread, engaged, and ready to hear from you. Don’t miss this chance to get your brand and message in front of the entire open source community. You’ve invested valuable time and resources into this year’s business goals - take this opportunity to connect with customers and drive new prospects.

Opportunity available for $19,500.
