## Additional Speaker or Panelists

Note: Each session is allowed (1) primary speaker and (1) co--speaker. Both the primary and co-speaker will receive a complimentary conference pass. All submissions with more than 2 speakers are considered panels and should be submitted as a panel discussion. Note that we do not allow panels with only men. For panel discussions, all panelists will receive a complimentary conference pass; there is a maximum of 4 panelists & 1 moderator.

### Mastract Title\*

If your talk is selected, the Abstract Title you choose will be the Title shown in the conference schedule, often what attendees use as a starting point to determine if they will be interested in the talk. Choose your title carefully - make sure that it accurately describes what your talk will cover.Please use <u>title case</u> when inputting your title here.

A	Abstract*	
- 71	προιιατι	

Provide an abstract that briefly summarizes your proposal. Provide as much information as possible about what the content will include. Do not be vague. This is the description that will be posted on the website schedule if your talk is selected, so be sure to spell check, use complete sentences (and not just bullet points), and write in the third person (use your name instead of "I"). Remember that this description is what will make an attendee decide whether your session would be a good fit for them. Be sure to provide enough information to help attendees make the right choice. Be clear and concise. The presentation selection process is very competitive, with many proposals rejected. A well-written abstract will greatly increase the possibility of the proposal being accepted. (Maximum characters: 1,200)

### Manual Audience\*

Describe who the audience is and what you expect them to gain from your presentation. Highlight whether this talk is for technology teams, enterprise leadership, or open source communities.(Maximum characters: 1,200)

E Audience Experience Level\*

☐ Foundational: These sessions focus on the general principles and the core practices, giving a general overview and driving a general understanding of the concepts.

Intermediate: These sessions expand on the concepts and focus on how to use, implement, or design general principles or core practices. These sessions are aimed at those who understand the concepts but want to expand their knowledge and experience.
 Advanced: These sessions will focus on complex concepts and require a strong foundational understanding of principles and practices.

General: These sessions are valuable to anyone.

Manual Second Se

Tell us how the content of your presentation will help better the ecosystem. (We realize that this can be a difficult question to answer, but as with the abstract, the relevance of your presentation is just as important as the content).(Maximum characters: 1,200)

Have you or anyone else given this presentation before?\*

	Yes No

The Program Committee reviews many proposals, and having extra resources helps to gauge the speaker's experience and expertise. If you have any links to previous talks showcasing you or any of your speakers, please share below. Other resources, like links to published books, LinkedIn profiles, or relevant blog posts, are also appreciated. We welcome applications from new speakers, so don't worry if you don't have previous talk recordings to submit here. Even a YouTube video of yourself speaking for a couple of minutes could help the reviewers.
