

OpenWallet
FOUNDATION

Launch 2/23/23

Antitrust Policy Notice

- Linux Foundation Europe meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- Examples of types of actions that are prohibited at Linux Foundation Europe meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at www.linuxfoundation.eu/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

Introducing our first Board Members

David Treat

Senior Managing

Wenjing Chu

Futurewei Technologies

**Drummond
Reed**

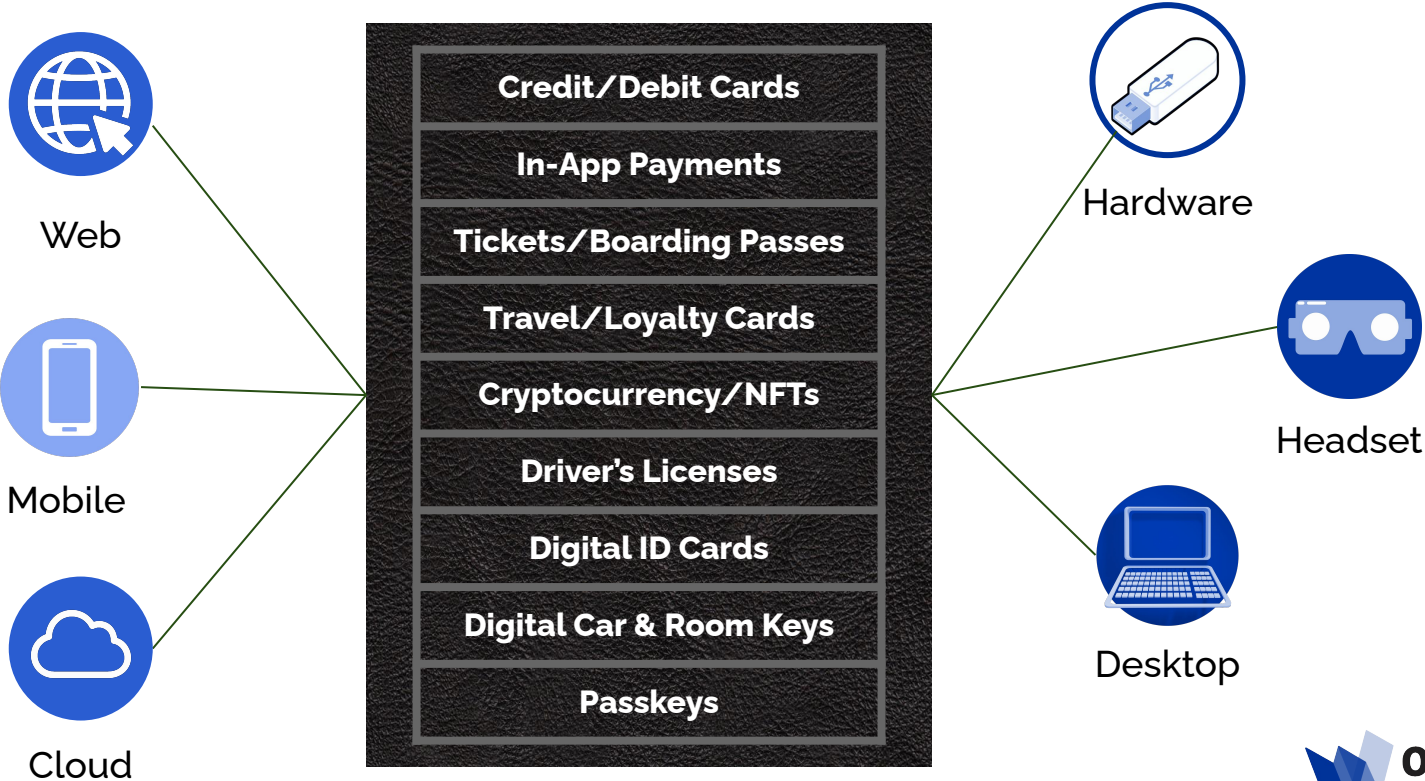

Director, Trust Services
Gen

**Marie
Austenaa**

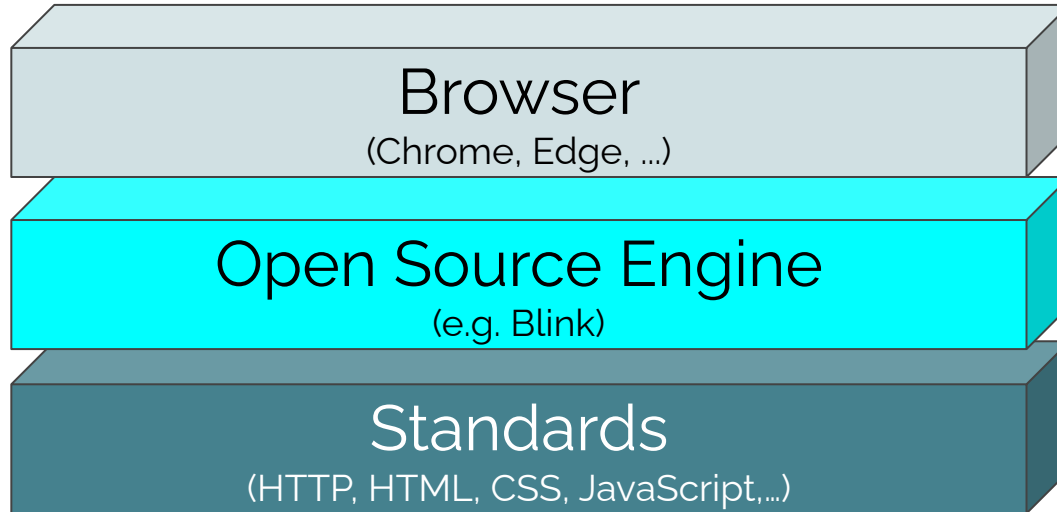

Head of Digital Identity,
Visa

Digital Wallets serve many purposes

Wallets will be as essential as Browsers.

Browser Construction

Better cost efficiency
Shorter time to market
Greater interoperability
Benefits for users

Future Wallets

Better cost efficiency
Shorter time to market
Greater interoperability
Benefits for users

OpenWallet Foundation Focus Areas

- ~~Governance~~
- ~~Trust frameworks~~
- ~~Standards~~
- Code

Mission Statement

The OWF is a consortium of companies and non-profit organisations collaborating to drive global adoption of open, secure and interoperable digital wallet solutions as well as providing access to expertise and advice through our Government Advisory Council.

The OWF aims to set best practices for digital wallet technology through collaboration on standards-based OSS components that issuers, wallet providers and relying parties can use to bootstrap implementations that preserve user choice, security and privacy.

Structure of the Foundation
