Abstract Title\*

Choose your title carefully - make sure that it accurately describes what your talk will cover.

Abstract \*

Provide an abstract that briefly summarizes your proposal. Provide as much information as possible about what the content will include. Do not be vague. This is the description that will be posted on the website schedule if your talk is selected, so be sure to spell check, use complete sentences (and not just bullet points), and write in the third person (use your name instead of "I"). Remember that this description is what will make an attendee decide whether your session would be a good fit for them. Be sure to provide enough information to help attendees make the right choice. Be clear and concise. The presentation selection process is very competitive, with many proposals rejected. A well-written abstract will greatly increase the possibility of the proposal being accepted.

The Program Committee reviews many proposals, and having extra resources helps to gauge the speaker's experience and expertise. If you have any links to previous talks showcasing you or any of your speakers, please share below. Other resources, like links to published books, LinkedIn profiles, or relevant blog posts, are also appreciated. We welcome applications from new speakers, so don't worry if you don't have previous talk recordings to submit here. Even a YouTube video of yourself speaking for a couple of minutes could help the reviewers.
