seL4 Summit

October 15-17 | Holiday Inn Sydney Potts Point | Sydney, Australia

The seL4 Summit is the annual international summit on the seL4 microkernel, the world's most highly assured OS kernel, as well as on all seL4-related technology, tools, infrastructure, products, projects, and people.

The seL4 Summit gathers the seL4 community to learn, share, and connect:

Learn — about the seL4 technology, its latest progress, use, successes, challenges, and plans

Share — exciting seL4 development, research, experience, and application in the real world

Connect — with other seL4 developers, users, providers, supporters, and potential partners

The program includes a wide range of seL4-related topics:

seL4 on-going and planned R&D, mature of early stage

- seL4 research efforts
- seL4 development efforts
- Work-in-progress seL4 development
- Student work on seL4
- New/missing/next gen kernel mechanisms
- seL4 related roadmap - what you plan to work on and when
- seL4 grand challenges
- OS frameworks and services
- seL4 userland with programming language support beyond C
- High-performance systems based on seL4 - pushing the boundaries

seL4 experience reports

- Experience with deploying seL4 in the field, in commercial/ deployed products
- Experience with teaching seL4
- Experience with seL4 certification schemes and application of industry standards
- Experience with "building a business case for using a verified kernel"
- Experience with porting software from other OSes

seL4 and hardware

- Ports to new hardware platforms or architectures
- Multicore systems
- Virtualization
- New/proposed hardware features or architectures, which could also enable or broaden the scope of formal reasoning (e.g. about time protection)
- seL4 in embedded processors on FPGAs, and impact of assured separation
- IOMMU solutions for various hardware architectures and impact for seL4

seL4 and assurance

- Application-level verification leveraging seL4 proofs
- Correctness, spatial separation, temporal separation, and real-time proofs
- Formalized interface between or composition of kernel-level proofs and user-level proofs
- Verification engineering at scale, scaling verification productivity
- Security/safety impact/assurance/certification for an seL4-based system

2024 SPONSORSHIP OPPORTUNITIES

Sponsorship Packages

Established in 2020, the seL4 Foundation brings together developers of the seL4 kernel, developers of seL4-based components and frameworks, and those adopting seL4 in real-world systems. Between 2018 and 2023, more than 550 participants took part in the seL4 conferences.

Participants come from industry, government and universities and include the creators of the seL4 technology and the research behind it. A lot of participants are practitioners deploying seL4-based products, as well as industry and government customers.

Your benefit as a sponsor:

- Get strong visibility as a major player in the seL4 ecosystem
- Showcase your seL4-based products, technology and services to target audiences in the field of seL4
- Support the open-source technology and community
- Connect directly with attendees through the expo booth, branding materials, and videos
