OPEN NETWORKING & EDGE SUMMIT EUROPE

**ONS is now the Open
Networking & Edge Summit!**

September 29-30, 2020 | Antwerp, Belgium

Open Networking & Edge Summit (formerly Open Networking Summit) is the industry's premier open networking event now expanded to comprehensively cover Edge Computing, Edge Cloud & IOT. Open Networking & Edge Summit (ONES) enables collaborative development and innovation across enterprises, service providers/telcos and cloud providers to shape the future of networking and edge computing.

ONES is the premier event for:

- Open collaborative community innovation & development across enterprises, service providers/telcos and cloud providers.
- Deep focused Technical, Architectural and Business Discussions in the area of Open Networking (NFVI/SDN/NFV/VNF - enabling automated 5G deployments, Cloud Native Telecom including Kubernetes Networking and Cloud Native Network Functions) & AI/ML enabled use cases for 5G, IoT, Edge and Enterprise deployments.
- Targeted Discussions on Edge/IoT Frameworks and Blueprints across Manufacturing, Retail, Oil and Gas, Transportation, Telco Edge cloud among others key areas.

"From my perspective, The Linux Foundation is doing a phenomenal job in fostering collaboration, and is creating tangible value and harmonizing the entire open source networking process."

-WILL TOWNSEND, SENIOR ANALYST, MOOR INSIGHTS & STRATEGY

**1000+ Attendees will gather at Open
Networking & Edge Summit Europe 2020.**

Sponsoring this event puts your company, products and technologies directly in front of key decision makers, business and technical leaders across a multitude of industry verticals. ONES 2020 is a critical forum for companies to strengthen their brand, establish thought leadership, connect with both end customers and partners, showcase innovative products and drive transformation across networking and edge computing.

Open Networking & Edge Summit Sponsor Benefits:

Gain valuable thought leadership and be front and center in the conversations and decisions driving enormous changes across networking and edge computing through your sponsorship.

Reach potential partners and customers, recruit top talent and create positive brand awareness across the community.

Showcase products, technologies and services to industry leaders, gain critical input and feedback, and strengthen valuable relationships with telecoms, cloud providers and end users across the globe.

“In comparison to last year, the Open Networking Summit managed to expand & increase in quality. We are glad that we made many new acquaintances, which we will hopefully meet again next year!” - PANTHEON

Linux Foundation events are where 35,000+ developers and technologists from across the globe meet to share ideas, learn and collaborate to drive innovation.

Open source communities are nearly always virtual and distributed, so when they get together face to face, they can make quick progress on issues big and small. In this way, events help maintain the vibrancy of global open source communities and ensure their long-term sustainability.

Open source is ubiquitous in computing—nearly all leading organizations use it to power their work. To deliver the most innovative products and services to their users and customers, companies must learn directly from the technologists who steer the most widely used and influential projects.

Linux Foundation events are the meeting place of choice for open source maintainers, developers, architects, infrastructure managers and sysadmins, as well as technologists leading open source program offices, DevRel teams and other critical leadership functions. They are:

- The best place to quickly gain visibility within the open source community and to advance open source development work by forming connections with the people evaluating and creating the next generation of technology.
- A forum to identify software trends early to inform future technology investments.
- The ripest recruiting ground in today's technology landscape.
- The ideal venue to showcase technologies and services to influential open source professionals, media, and analysts around the globe.

The Linux Foundation brings together companies and individual contributors to build the greatest shared technology in history. We provide the events, training, certification, open source best practices and marketing, and necessary to build, scale, and sustain critical open source projects and communities. As the home of over 200 open source projects driving critical technologies, there is no organization better positioned to gather the open source community for important face to face interaction to drive innovation across open source. And, unlike for-profit event management firms, any money generated by our events is channeled back into supporting open source communities to support their growth.
